the real & original design

Wetlook™ & Realflame™

DeluxeHomeart LED candles have set a new standard with the patented Wetlook™ effect, replicating melted wax pooling around the wick for unmatched realism. Paired with the lifelike RealFlame™ effect, our candles provide a safe, authentic candlelit ambiance without impacting indoor air quality.

As firstmovers in the LED candle industry, we've redefined design and functionality. Our patented design is legally protected in Europe, the USA, and China, ensuring the originality of our creations worldwide.

A still life composition featuring lit candles, a vase with yellow flowers, and a woven mat. The scene is set on a light-colored, textured surface, possibly a rug or mat. In the foreground, a lit candle with a ribbed texture sits on a wooden tray. To its right, another lit candle with a similar texture is visible. In the background, a clear glass vase holds several thin, dark branches with small yellow flowers. The overall aesthetic is warm and minimalist.
